

Discussit

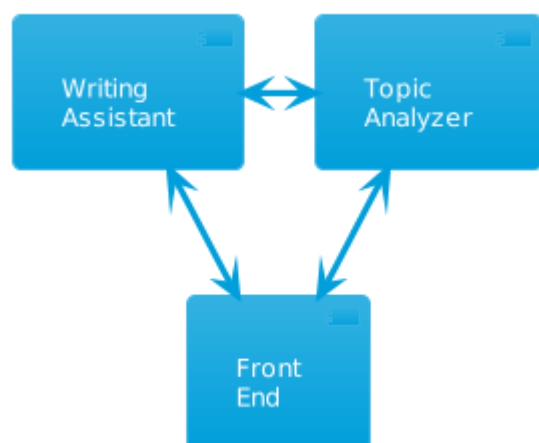

Kickoff

Vision

We get conversation data from everywhere, and provide the natural language tools analyze, understand, and leverage it with Artificial Intelligence.

We will be the source of conversation data for Artificial Intelligence and Machine Learning.

MVP

- Takes a transcript
 - Analyzes the topics in the transcripts
 - Writes an informed document based on the conversation data
-

Customers we have now

- [Kruno Golubic](#) - Developer relations at MemGraph (Marketing) Plans to use Discussit to conduct product-management style interviews. Gross Revenue: \$20
 - [Joaquin Melara](#) Plans to use Discussit to analyze conversations with consulting customers (validate). Gross Revenue: \$5 0 technical writers
-

Roles

None of this is final, just a first cut:

- Ryan Lund - Sales + Product Management
 - Emily Merritt - Marketing + Operations
 - John Davenport - Engineering + Product + Operations + Infrastructure
-

Goals

- Sales - Close 3 customers with MVP (our flat rate cohort)
- Engineering - Stabilize MVP, resume development of V1
- Marketing - Stand up basic stuff (website, linkedin, logo)
- Corporate - draft agreement
